Yee, J., Effect of Consumption Standards on U.S. Gasoline Consumption, 205

Subject Index for Volume 13

A

Acid rain
  as major environmental problem in European Community, 347
Affirmative action programs
  U.S., effect of on women's employment, 367
Aggregate model
  in simulating effect of consumption standards on U.S. gasoline consumption, 205
Agricultural price policies
  political interest group competition and, 489
Air pollution
  control, European Community directive for, 347
Alternative fuels
  reliance on, 115
Argentina
  strategic alternatives in economy of, 407
Australia
  macroeconometric model dissemination in, 599
Automobile market
  structural supply and demand model of, 205
Automobile production
  U.S., Japanese investment in, 467

B

Backwash
  as response to inflation, 229
Biotechnology
  in U.S. agriculture, 241
Book Review
  Rethinking International Trade, 153
Botswana
  exchange rate and price level in, 309
Bovine somatotropin (bST)
  synthetic, as major biotechnological advance, 241
Brazil
  wage inflation, fiscal policies, and income distribution in, 383
Budget deficit
  price control effects on, 157
Bush Administration
  Clean Air Plan of, 115

C

Canada
  macroeconometric model dissemination in, 599
  welfare costs of uniform tariffs for, 459
Canada–United States Free Trade Agreement
  economic impact and transition effects, 421
  economic modeling of, 417
  macroeconomic effects and sensitivity analysis, 435
Capital controls
  under fixed rates, 1
Central bank intervention in free market
  in macroeconomic simulation model for developing country, 58
China
  extended linear expenditure systems model applied to, 301
Clean Air Plan
  effectiveness of methods of meeting goals of, 115
Climate change
  modeling uncertain impacts of, 185
Cobb–Douglas production function
  in forward-looking macroeconomic simulation model for developing country, 44
Commission of the European Community
  air pollution control policy proposed by, 347
Comparative advantage theory
  HOVMOD model similarity to, 571
Competitive advantage
  international, gaining of by firms, 93
Competitive model
  of Japanese firm, 93
Computable general equilibrium (CGE) model
  for costs of meeting Clean Air Plan goals, 115

© Society for Policy Modeling, 1991
0161-8938/91/$3.50

for political economy of stabilization programs, 318
for small open economy, 571
three-sector, in assessment of "Dutch disease" economics, 67
for wage inflation, fiscal policies, and income distribution in Brazil, 383
Consumers
public sector prices for, 157
Consumption expenditures and utility
aggregate loss in production and economic welfare due to improving environmental quality measured by, 115
Consumption standards
effect of on U.S. gasoline consumption, 205
Cooperation
of European Monetary System, 1
Cooperative fixed exchange rate regime
fixed-rate European Monetary System compared to, 1
Core model
three-sector, in assessment of "Dutch disease" economics, 67
Corporate average fuel economy (CAFE)
structural supply and demand model to simulate effect of, 205
Cost
of improving environmental quality, 115

D

Dairy products
trade consequences for of biotechnology in U.S. agriculture, 241
Deficits
money-financed, inflationary impact of, 229
Demand side
effect of consumption standards on U.S. gasoline consumption and, 205
Devaluation of official exchange rate
effect of on main macroeconomic indicators, 157
in macroeconomic simulation model for developing country, 59
Developing countries
forward-looking macroeconomic simulation model for, 41
stabilization programs in, 317
Direct foreign investment
by Japan in U.S., 467
Domestic credit shock
in macroeconomic simulation model for developing country, 52
Domestic goods
in consumption, foreign goods as imperfect substitutes for, 157
Domestic taxes
welfare cost of import restraints in presence of, 459
Dominance tests
as part of welfare analysis for Indonesia, 281
"Dutch disease" economics
three-sector computable general equilibrium model in assessment of, 67
three-sector core model in assessment of, 67

E

Economic activity
trade-off between environmental quality and, 115
Economic interdependence
in European Community, 1
Ecuador
political economy of stabilization programs in, 318
Environmental quality
cost of improving, 115
Equal employment opportunity (EEO) programs
U.S., effect of on women's employment, 367
European Economic Community (EEC)
air pollution control policy proposed by, 347
synthetic bovine somatotropin adoption by, 241
European Monetary System
leadership and cooperation in, 1
Exchange rate
devaluation, 59, 157
in small open economy, 309
Extended linear expenditure systems (ELES) model
theoretical implications of rationing and subsidies on, 301
Externality
public policy in health care and, 595

F

Fair–Taylor algorithm
in TROLL, solutions to macroeocnomic simulation model for developing country obtained via, 51
Fiscal policies
in Brazil, 383
Fiscal shocks
money-financed deficits and, 229

Fixed-coefficients model
Phillips curve volatility assessed via, 141
Fixed exchange rate
price controls and, 157
Flexible exchange rates
assumption of in European area, 1
FOCUS Canadian model
of macroeconomic effects of the Canada–U.S. Free Trade Agreement, 418, 435
Food pricing reforms
effects of on poverty, 281
Foreign goods
as imperfect substitutes for domestic goods in consumption, 157
Foreign loan conditions
optimization of for public sector project, 529
France
in MSG model, 4
Free market
central bank intervention in, 58
Free Trade Agreement
between Canada and U.S., 417, 421, 435

G

Gasoline consumption
in U.S., effect of consumption standards on, 205
General equilibrium model
of macroeconomic effects of the Canada–U.S. Free Trade Agreement, 418, 422
of short-term macroeconomic effects of price controls, 157
Geometric analysis
of welfare cost of import restraints in the presence of taxes, 459
Germany
fixed-rate European monetary system under leadership of, 1
in MSG model, 1
tax reform programs in, 551
GET general equilibrium model
of macroeconomic effects of the Canada–U.S. Free Trade Agreement, 418
Gordon, Robert, 141
Government expenditure shock
in macroeconomic simulation model for developing country, 55
Greenhouse gases
uncertainty of effect of on climate, 186

H

Harris Model
of effects of the Canada–U.S. Free Trade Agreement, 418, 422
Headcount index
of poverty, 282
Health care systems
economics of public policy in, 595
Horizontal equity
improvements in, 551
Household welfare analysis
for Indonesia, 281
HOVMOD model
for small open economy, 571

I

Import restraints
welfare cost of, in presence of domestic taxes, 459
Income distribution
in Brazil, 383
price control effects on, 157
Income output
price control effects on, 157
Indonesia
welfare analysis for, 281
Industrial countries
incomplete pass-through for, 309
Inflationary financing
deficit created by, 229
Input subsidy policies
hypothetical reforms of for Indonesia, 281
International cartel
political goodwill for, 515
International coordination
of economic policies, 1
International transmission
of policies and disturbances, 1
Investment efficiency
low, in Argentina, 407
Iowa
modeling uncertain impacts of climate change in, 186
Israel
optimizing foreign loan conditions for public sector project in, 529
Italy
in MSG model, 4

J

Japan
competitive model of firms in, 93
investment of in U.S. automobile production, 467
President Club memberships in, 96
trade linkages of, 2

K

Kansas
  modeling uncertain impacts of climate change in, 186

L

Labor market distortion
  imposed by domestic taxes, 459
Labor productivity slowdown
  in the Netherlands, 259
Leadership
  of European Monetary System, 1
Less developed countries
  foreign aid programs to, 529
"Living off our means" view
  in Argentina, 407
Logit scrappage rate model
  in simulating effect of consumption standards on U.S. gasoline consumption, 205
Lorenz curve
  income distribution described by, 551

M

Macroeconomic effects
  short-term, of price controls, 157
Macroeconomic model(s)
  for developing country, 41
  dissemination of, 599
  extended linear expenditure systems in, 301
  of macroeconomic effects of the Canada–U.S. Free Trade Agreement, 418, 435
Magnification effect
  inflationary, after money-financed deficit, 229
Microstimulation model
  of income redistribution effects of tax reform in Sweden, 551
Milk production
  trade consequences for from biotechnology in U.S. agriculture, 241
Missouri
  modeling uncertain impacts of climate change in, 186
Money wages
  in Brazil, 383
Monopolistic pricing strategies
  intertemporal, 515
Monte Carlo analysis
  modeling uncertain impacts of climate change and, 185
Moving average transitory shock
  money-financed deficits and, 229
MSG model
  of European Monetary System, 2
Multinomial logit model
  in simulating effect of consumption standards on U.S. gasoline consumption, 205
Mundell–Fleming structure
  of forward-looking macroeconomic simulation model for developing country, 43

N

Nebraska
  modeling uncertain impacts of climate change in, 186
Netherlands
  labor productivity slowdown in, 259
  tecnical progress in, 259
New Zealand
  milk export by, 241
Nonlinear dynamic input-output model
  of Argentine economy, 407
Norway
  general equilibrium modeling for, 571
Nuclear power plant
  optimizing foreign loan conditions for, 529

O

OECD INTERLINK model
  macroeocnomic effects of European Community directive to control air pollution assessed via, 347
Oil price politics
  economics of, 515
One-period transitory shock
  money-financed deficits and, 229
Open economy
  price controls in, 157
  small
    Exchange rate and price level in, 309
    general equilibrium modeling in, 571

P

Pareto-suboptimal allocation
  absence of market resulting in, 595
Pass-through
  of foreign price and exchange rates to domestic prices in small open economy, 309
Penalty
  for price changes, 515
Phillips curve relationship
  modeling volatility of, 141
Policy autonomy
  in European area, 1

Policy coordination
potential gains from in European area, 1
Political interest group competition
agricultural price policies and, 489
Pollution abatement devices
installation of, 115
Poverty
food pricing reform effects on, 281
President Club memberships
in Japan, 96
Price changes
penalizing, 515
Price controls
short-term macroeconomic effects of, 157
Price level
in small open economy, 309
Price politics
economics of, 515
Private sector
price control model for, 157
public benefit model of health care and, 595
Producers
public sector prices for, 157
Project LINK
U.S.–Japan model in framework of, 467
Public benefit model
of health care, 595
Public sector
price control model for, 157
project, optimizing foreign loan conditions for, 529
Public spending and transfers
in Brazil, 383

R

Rational expectation dynamic general equilibrium simulation model
of world economy, 1
Rationing
effects of on extended linear expenditure systems model, 301
Real wage costs
influence of on scrapping of old capital goods, 259
Real wage rate indices
for Brazil, 384
Recession
effect of on adjustment of Canadian economy to free trade with U.S., 418
Reduced-form models
climate change impact modeling and, 185
Reduced-form specification
of conventional wage and price equations, 141
Regulation
installment of pollution abatement devices and, 115
Rice pricing
hypothetical reforms of for Indonesia, 281

S

Semiconductor industry
in competitive model of Japanese firm, 93
Spillover
effects, of policies across countries, 1
of price controls into trade balance, 157
Stabilization programs
political economy of, 317
Stochastic-coefficients model
Phillips curve volatility assessed via, 141
Structural malleability
in Argentina, 407
Structural supply and demand model
of automobile market, 205
Subsidies
effects of on extended linear expenditure systems model, 301
hypothetical reforms of for Indonesia, 281
imposition of by price controls, 157
Supply side
effect of consumption standards on U.S. gasoline consumption and, 205
Surge
initial, as response to inflation, 229
Sweden
income redistribution effects of tax in, 551

T

Taxes
domestic, welfare cost of import restraints in presence of, 459
imposition of by price controls, 157
reliance on alternative fuels brought on by, 115
Tax reform
income redistribution effects of in Sweden, 551
Technical progress
in the Netherlands, 259
Time-varying parameter approach
in assessment of Phillips curve volatility, 141
Trade
balance, spillover of price controls into, 157
international, rethinking (*book review*), 153
Transplants
by Japan to U.S., 467

U

Uncertainty
in forecasting effects of climate change, 185
United Kingdom
macroeconometric model dissemination in, 599
tax reform programs in, 551
United States
affirmative action programs in, 367
agriculture, biotechnology in, 241
effect of consumption standards on gasoline consumption in, 205
Free Trade Agreement of with Canada, 417, 421, 435
Japanese investment in automobile production in, 467
macroeconometric model dissemination in, 599
milk export by, 241
synthetic bovine somatotropin adoption by, 241
tax reform programs in, 551
trade linkages of, 2
welfare costs of uniform tariffs for, 459

V

Vintage modeling of productive capacity and labor demand
step-by-step, for the Netherlands, 259
Volatility
of Phillips curve relationship, 141
Voluntary export restraint system
avoidance of, 467

W

Wage inflation
in Brazil, 383
Welfare analysis
for Indonesia, 281
Welfare consequences, of import restraints in presence of domestic taxes, 459
Women's employment
effect of U.S. affirmative action programs on, 367
World Bank
Living Standards Measurement Study of, 318
World market prices
in HOVMOD model, 571
